EXPERIENCE

Java Developer   Oct '23 — Sep'24
SN Studio   Pune, India
- Developed backend modules for a scalable e-commerce application, including product management, order processing, and user authentication.
- Built REST APIs for frontend integration, supporting dynamic data rendering.
- Used Hibernate for object-relational mapping (ORM) to streamline database operations.
- Designed database schema for efficient data organization and implemented stored. procedures for complex operations.

- Developed modular, reusable, and testable code using Java best practices.
- Designed RESTful APIs and integrated them with frontend technologies to create dynamic web applications.
- Maintained and improved database structures using SQL to support application functionality.
- Implemented exception handling and logging mechanisms to improve application.
.
- Researched and integrated the third-party API's like Google Maps for the enhanced applications functionalities.

PROJECTS

ViewBlog Link   Mar '24 — Present
- Developed a fully responsive blog application using React.js, Java and MySQL, ensuring a seamless user experience across devices.
- Implemented dynamic content management and RESTful APIs for efficient data storage, retrieval, and user interaction.
- Designed the application with a focus on scalability and performance, optimizing load times and enhancing navigation.

AR Foundation Link   Dec '23 — Mar '24
- Utilized springboot, html,css,javascript to create a secure website for NGO.
- Implemented RESTful APIs and integrated MySQL to store payment data using PhonePe API.
- Designed and developed responsive and visually appealing user interfaces using Bootstrap, js focusing on enhancing user engagement and conversion rates.

Portfolio Link   Mar '24 — Present
- Developed a sleek portfolio site with React.js and Tailwind CSS.
- Highlighted projects, skills, and contact information.

SKILLS

Programming Languages   Java, React, SQL.
Frameworks   SpringBoot, Hibernate
Version Control   Git, Github
Database Management   MySQL,
IDE and Tools   Visual Studio Code, EclipseIDE, SQL Server

EDUCATION

B.Tech in Computer Science And Engineering, Bansal Institute Of   Jul '18 — Jul '22
Engineering & Technology   Lucknow, India
